

FML/SSL

Mulcher with swinging hammers rotor for skid steer loaders between 75 and 120 HP equipped with a high flow kit.

Standard equipment: 63 cc hydraulic piston motor with double relief valve with anticavitation and brake function, hydraulic hood, adjustable skids, working pressure control gauge, hydraulic hoses, pushing frame.

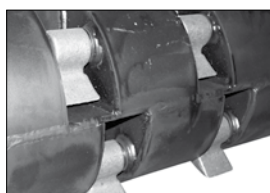

Options: hammers with tungsten carbide tips FMM/HM, diverter valve, 56 cc hydraulic piston motor, oil cooler kit.

FML/SSL

Model	Power HP	Requirements		Working width mm	Overall width mm	Weight Kg	Grinding diameter mm (max)	Hammers q.ty/type FFM
	Min - Max	Flow L/min Min - Max	Pressure Bar Min - Max					
FML/SSL 125	75 - 110	125 - 150	200 - 250	1210	1590	1000	200	20
FML/SSL 150	75 - 110	125 - 150	200 - 250	1450	1830	1094	200	24
FML/SSL 175	85 - 120	125 - 150	230 - 300	1690	2070	1180	200	28

The data refers to the machine without options.

Rotor type FML/SSL

Hammer type FMM

Hammer type FMM/HM (Option)
